(c) Following actions are being taken by the coal companies to improve the conditions of these mines:-

(1) Mechanization of underground mines with suitable intermediate technology *i.e.* Side Discharge Loader (SDL), Load Haul Dumper (LHD) alongwith transport system to improve production and productivity of the mines.

(2) To deploy low cost continuous miner for viable economics, wherever possible.

(3) To replace Surveyed off equipments with new fleet of Heavy Earth Moving Machine (HEMM) for improving availability and utilization.

(4) Identification of isolated and fire effected patches for working through hired HEMMs.

(5) Introduction of Mechanized loading in place of manual loading.

(6) Rationalization of manpower.

Allotment of coal fields

† 1833. DR. MURLI MANOHAR JOSHI:
SHRI RAJ MOHINDER SINGH MAJITHA:

Will the PRIME MINISTER be pleased to state:

(a) whether it is fact that 745 applications have been received for the allotment of 15 coal fields in the country;

(b) if not, the facts in this regard;

(c) whether petitioners include those people also to whom coal fields have been allotted for mining earlier;

(d) if so, the names of those people and names of the people out of them who have not made any production as per rule in the allotted coal fields so far; and

(e) whether Government would blacklist such petitioners of these coal fields?

THE MINISTER OF STATE IN THE MINISTRY OF COAL (DR. DASARI NARAYANA RAO): (a) and (b) Yes, Sir. 745 applications were received for 15 coal blocks earmarked for allocation to power sector under the captive use dispensation.

(c) and (e) Yes, Sir. There are 36 applicant companies which have applied for power blocks and were already allocated coal blocks for different end uses. A list indicating names of 36 companies and status of production from the block allocated to them is given in the Statement *{See* below). The list also indicates names of such allocatees which have not started production.

The allocatees of coal blocks, who have not started production so far, are in various stages of obtaining statutory clearances and mining lease, preparing

†Original notice of the question was received in Hindi.

mining plan, acquiring land, procuring machinery and equipment etc. for both the mining as well as end-use project. The progress achieved by them against certain given milestones are reviewed by a Committee headed by Additional Secretary (Coal) periodically.

Development of coal blocks involves a long gestation of about 3 to 5 years to reach production stage and about another two. years to reach its optimal production capacity.

Specific mile stones are laid down for development of coal blocks. This is monitored and reviewed periodically. In case of willful delays, notices are issued, where warranted, de-allocation of coal blocks could be considered.

Statement

A list indicating names of 36 companies and status of production from the block allocated to them
